ALIGNING FOR STUDENT SUCCESS & 3A'S

INTRO

The Oregon Department of Education (ODE) has a grant opportunity called [Aligning for Student Success](#). They have developed guidance on the six federal and state programs within the grant that aim to increase student success. ODE has created a detailed, [guidance document](#) providing:

- description of each initiative
- how to integrate and plan each program
- tools and templates on how to blend funds
- information on how to apply
- description on how applicants will be reviewed
- how to use, report, and monitor data
- resources available to schools/districts

For a quick snapshot on how these also align with the mission of Oregon GEAR UP (GU), we have created a quick crosswalk demonstrating where these initiatives align.

For more information, check-out ODE's webpage on the [Aligning for Student Success grant](#).
