

PSAT/NMSQT[®]

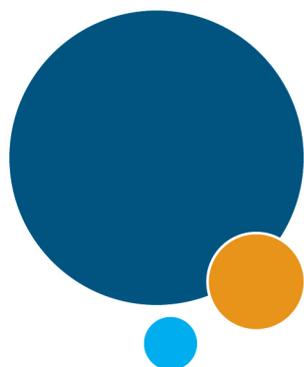

Preliminary SAT/National Merit Scholarship Qualifying Test

2014-15 SOAS

Summary of Answers and Skills Report

Wednesday Form: Juniors, Class of 2016

Oregon State Public Schools

PSAT/NMSQT results for your students are enclosed. Use this information to adjust curricula and instructional practice to improve student learning.

Performance Overview

This report details the performance of 11,545 students from the 11th grade. This page provides an overview of your students' performance on the PSAT/NMSQT, allowing you to make general comparisons of your student population with the state and nation. The remainder of the report will assist you in analyzing your students' performance in much greater detail - use it to identify gaps in your local curriculum or to adapt instruction.

For each section of the test (critical reading, mathematics and writing skills), you will find the following:

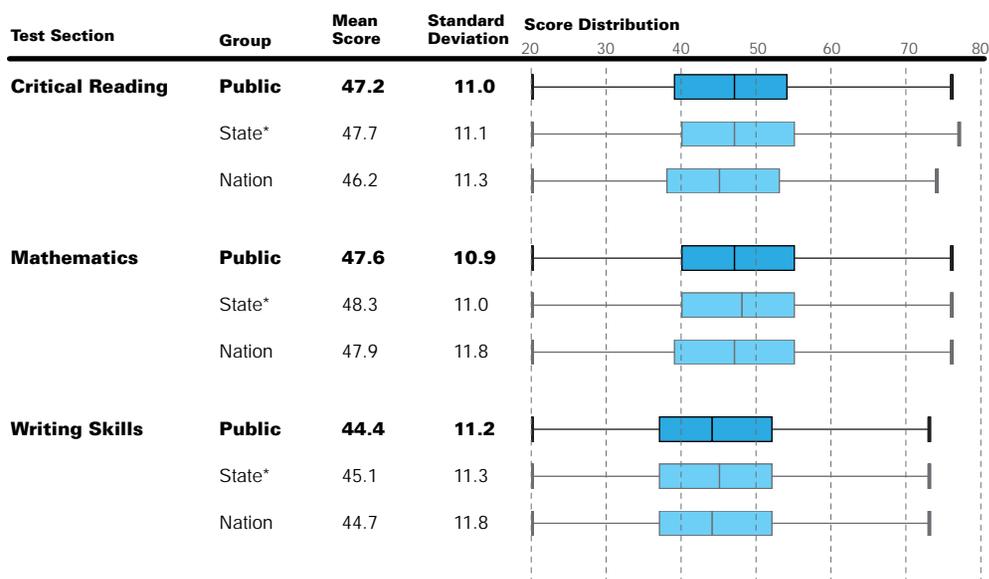

- **Skill Analysis:** A summary of your students' performance on the college readiness skills tested on the PSAT/NMSQT.
- **Question Analysis:** A detailed analysis of your students' responses to each PSAT/NMSQT question.
- **Comparable Group Analysis:** A statistical comparison highlighting anomalies in your students' performance on each PSAT/NMSQT question.

11,545
11th GRADE STUDENTS

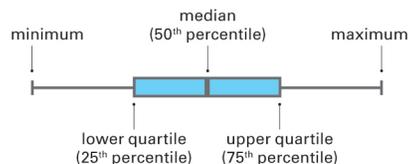

235
SCHOOLS

Score Distribution

The "boxplots" to the right show the distribution of test scores for your students, as well as for the state and nation. When interpreting these results, focus on typical scores (means and medians), variability in scores (standard deviations and lengths of boxes), and shapes of distributions (position of boxes relative to the median). Plots that have boxes that are off-center reveal that a greater proportion of students are high-scoring (the box to the right) or low-scoring (box appears to the left).

* Note: "State" refers to all students in your state, including public and non-public schools for all pages in this report.

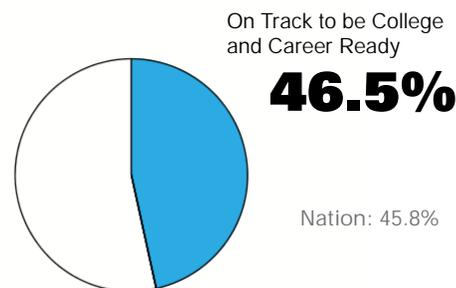

Note: The minimum and maximum exclude outliers.

College and Career Readiness

The PSAT/NMSQT College and Career Readiness Benchmarks represent the scores that a student should meet or exceed to be considered on track to be college and career ready (for more information about benchmarks, visit www.collegeboard.org/results).

The pie chart shows the percentage of your students who have met the PSAT/NMSQT composite score benchmark (142 for juniors and 133 for sophomores). Use this information with the Roster of Student Scores and Plans or optional Student Data File CD to identify students who may need extra support or who may be ready for more rigorous course work.

All data on this page (score information and percent of students meeting the College and Career Readiness Benchmark) are based on students who took the same PSAT/NMSQT form (Wednesday). To view state and national score information and of students meeting the College Readiness Benchmark for the total group (Wednesday and Saturday combined), see the College-Bound Sophomores and Juniors reports available at scores.collegeboard.org

Critical Reading Skill Analysis

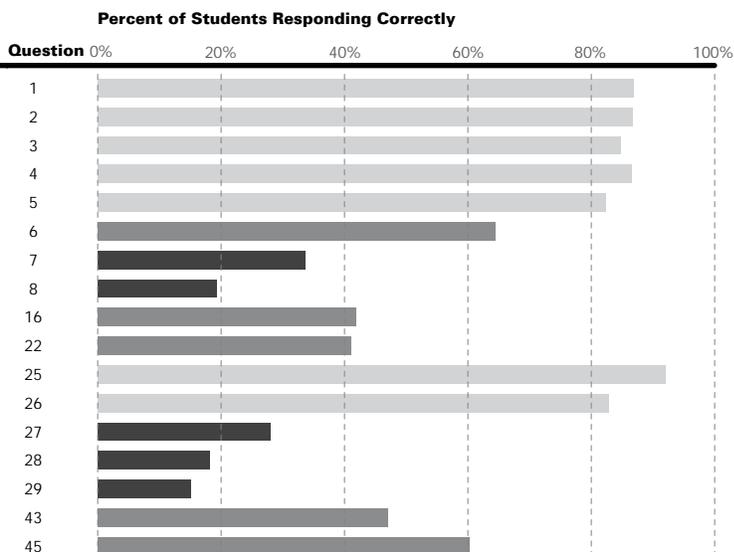

The left column indicates how many questions your students answered correctly. The right column shows your students' performance on each question by skill category.

Group	Difficulty
x Public	Easy (1-3)
G State	Medium (4-6)
F Nation	Hard (7-9)

Determining the Meaning of Words

Use vocabulary skills, context, roots, prefixes, and suffixes to determine the meaning of words.

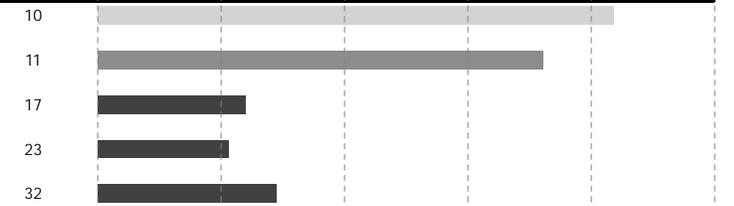

9.7 of 17 questions correct

Author's Craft

Understand how authors use tone, style and writing devices such as metaphor or symbolism.

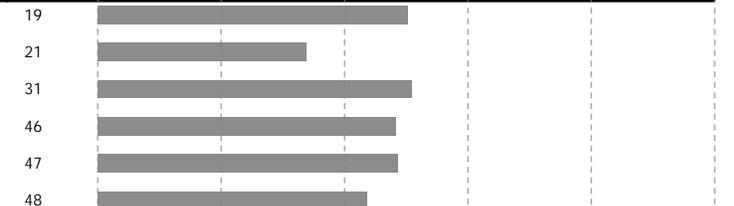

2.3 of 5 questions correct

Reasoning and Inference

Understand assumptions, suggestions and implications in reading passages and draw informed conclusions.

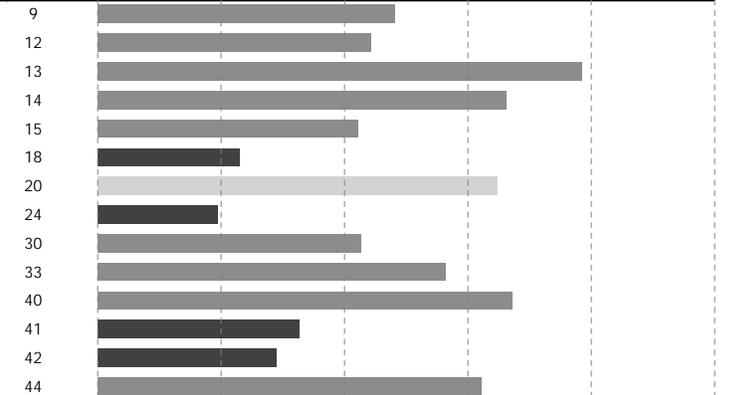

2.8 of 6 questions correct

Organization and Ideas

Understand the organization of a reading passage, and identify the main and supporting ideas.

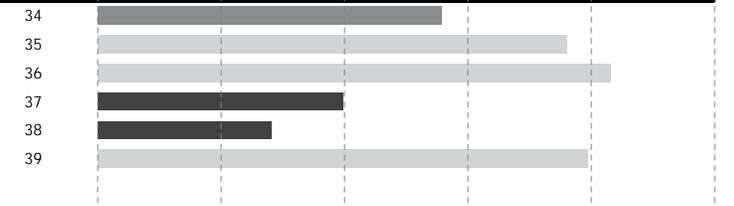

6.8 of 14 questions correct

Understanding Literary Elements

Understand literary elements such as plot, setting and characterization.

3.6 of 6 questions correct

Critical Reading Comparable Group Analysis

What is a comparable group?

A comparable group is a statistically generated group that allows you to identify questions where your students' performance diverges from what might be expected based on their overall performance. It is a sample of students whose overall performance was similar to the performance of your student population. This group is compiled based on performance only, and does not account for attributes like student demographics, geographic region or school size.

How is this information useful?

Focusing on questions where your students' performance is significantly lower than the comparable group performance can reveal opportunities where you might realistically expect to improve student learning. Similarly, when your students' performance is significantly higher than the comparable group performance, you can identify strengths in your curriculum and instruction, and work to ensure that those strengths are recognized and maintained.

	Question	Difficulty	School (% correct)	Comp Group (% correct)	Difference between School and Comparable Group				
					-10%	-5%	0%	+5%	+10%
Section 1	1	2	87	85				}

	47	4	49	50			}		
	48	5	44	48			}		

Your students performed **significantly worse** on questions that fall in the dark blue column to the left, and **significantly better** on questions that fall in the light blue column to the right.

Mathematics Skill Analysis

The left column indicates how many questions your students answered correctly. The right column shows your students' performance on each question by skill category.

Group	Difficulty
x Public	 Easy (1-3)
G State	 Medium (4-6)
F Nation	 Hard (7-9)

Number and Operations

Understand types of numbers (integers, fractions, decimals), their properties, and the correct order of operations (multiplication, division, addition).

4.0 of 8 questions correct

Algebra and Functions

Solve problems using algebraic expressions and symbols to represent relationships, patterns, and functions of different types.

7.3 of 14 questions correct

Geometry and Measurement

Solve problems based on understanding the properties of shapes, such as triangles and circles, and the spatial relationships between angles and lines.

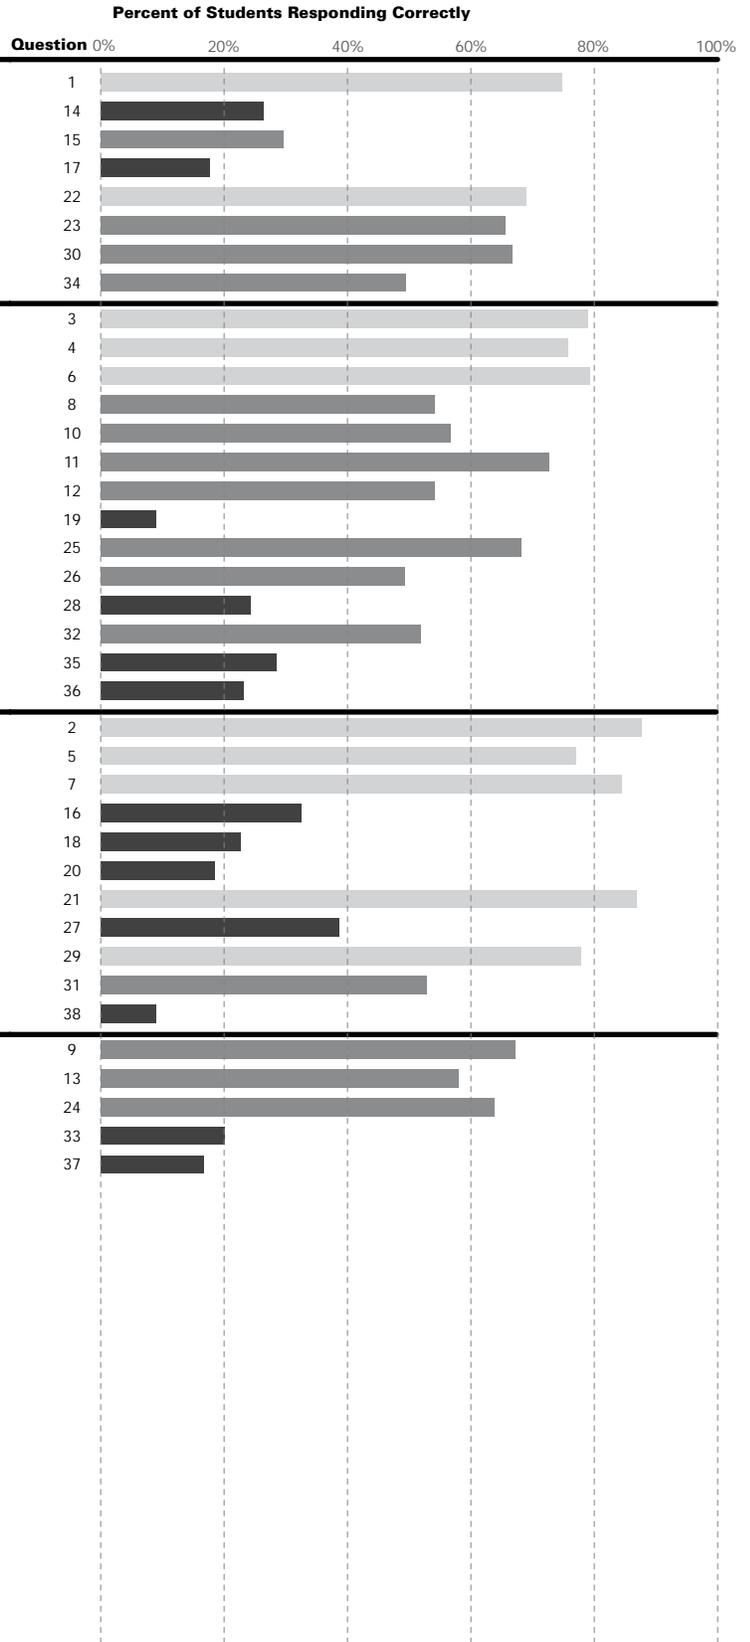

5.9 of 11 questions correct

Data, Statistics, and Probability

Analyze data, understand descriptive statistics, make inferences and determine the likelihood that certain events will occur.

2.3 of 5 questions correct

Mathematics Skill Analysis

The left column indicates how many questions your students answered correctly. The right column shows your students' performance on each question by skill category.

Group	Difficulty
x Public	Easy (1-3)
G State	Medium (4-6)
F Nation	Hard (7-9)

Problem Solving

Solve abstract and practical problems, applying and adapting a variety of strategies. Monitor progress and evaluate answers in terms of questions asked.

5.5 of 11 questions correct

Percent of Students Responding Correctly

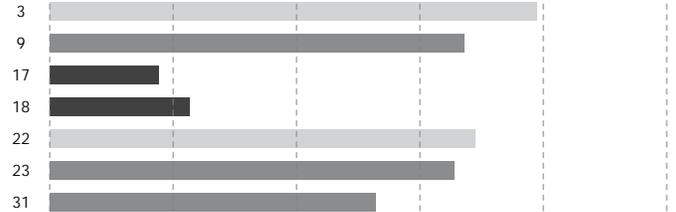

Question 0% 20% 40% 60% 80% 100%

Representation

Use and translate among representations including verbal, numerical, symbolic, and graphical to communicate mathematical ideas and solve problems.

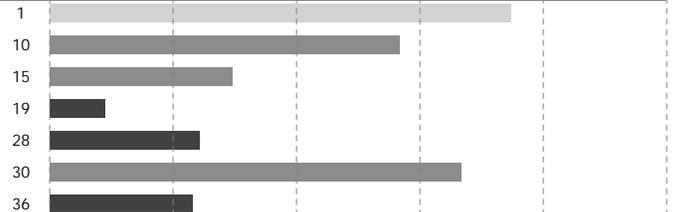

3.7 of 7 questions correct

Reasoning

Develop and use mathematical arguments and proofs to explore the truth of conjectures and justify conclusions.

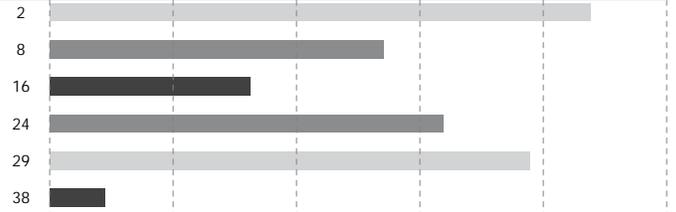

2.8 of 7 questions correct

Connections

Connect ideas from different areas of mathematics (particularly geometry and algebra) to state or solve abstract or applied problems.

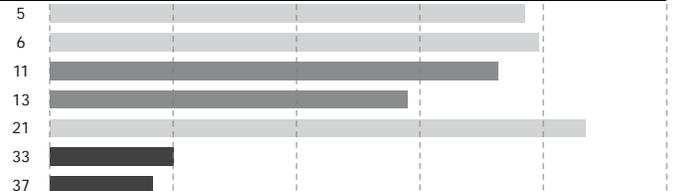

3.3 of 6 questions correct

Communication

Express mathematical ideas precisely and communicate them coherently and clearly in the language and notation of mathematics.

4.1 of 7 questions correct

Mathematics Question Analysis

This section shows the distribution of correct and incorrect answers for your students, state and nation.

Mathematics Comparable Group Analysis

What is a comparable group?

A comparable group is a statistically generated group that allows you to identify questions where your students' performance diverges from what might be expected based on their overall performance. It is a sample of students whose overall performance was similar to the performance of your student population. This group is compiled based on performance only, and does not account for attributes like student demographics, geographic region or school size.

How is this information useful?

Focusing on questions where your students' performance is significantly lower than the comparable group performance can reveal opportunities where you might realistically expect to improve student learning. Similarly, when your students' performance is significantly higher than the comparable group performance, you can identify strengths in your curriculum and instruction, and work to ensure that those strengths are recognized and maintained.

Your students performed **significantly worse** on questions that fall in the dark blue column to the left, and **significantly better** on questions that fall in the light blue column to the right.

Writing Skills Skill Analysis

The left column indicates how many questions your students answered correctly. The right column shows your students' performance on each question by skill category.

Group	Difficulty
x Public	Easy (1-3)
G State	Medium (4-6)
F Nation	Hard (7-9)

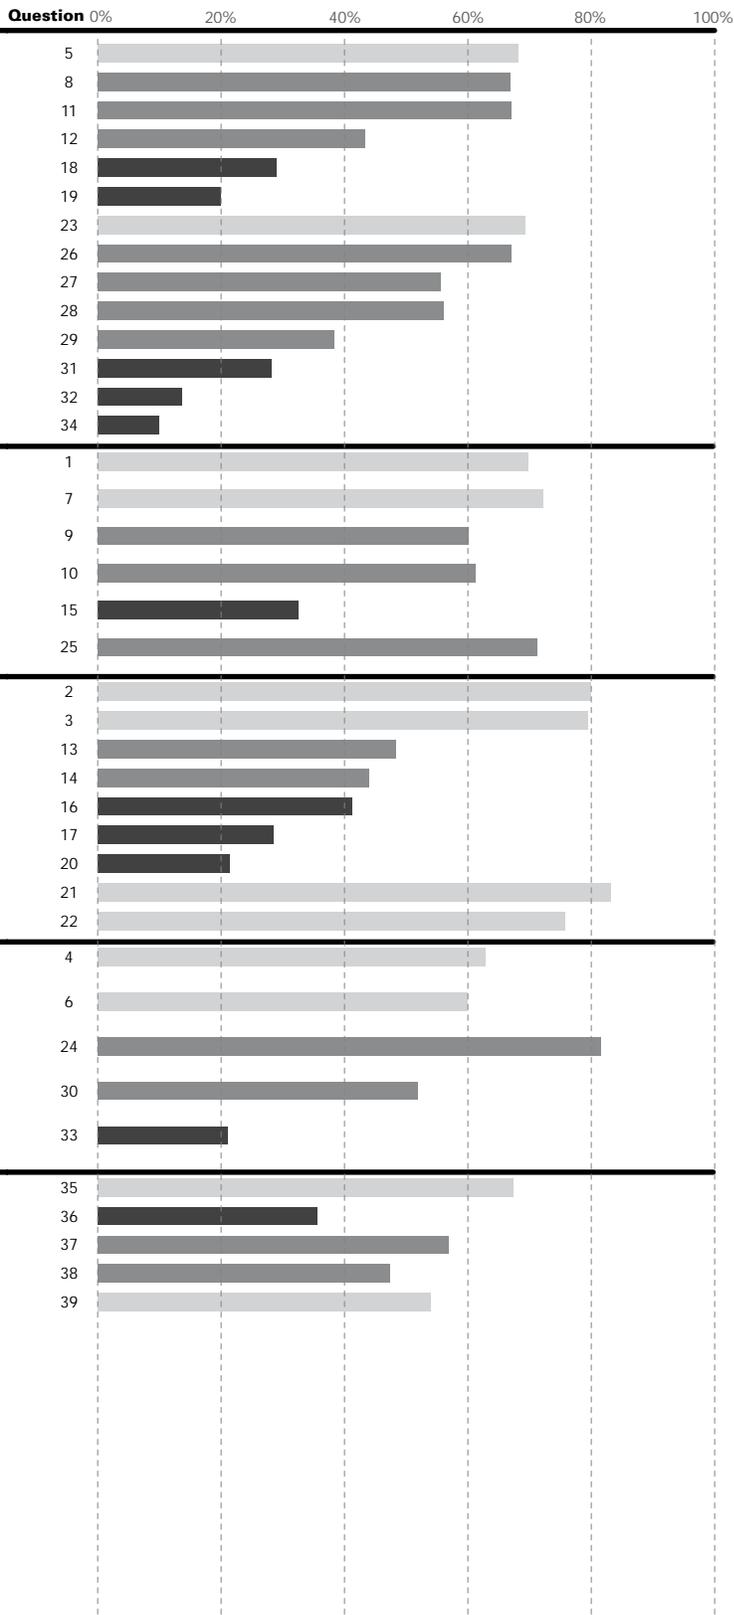

Manage Word Choice and Grammatical Relationships Between Words

Understand relationships between and among words including subject-verb agreement, pronouns, and verb form and tense.

6.3 of 14 questions correct

Percent of Students Responding Correctly

Manage Grammatical Structures Used to Modify or Compare

Understand correct use of adjectives, adverbs, comparative structures (neither/nor), and phrases used to modify or compare.

3.7 of 6 questions correct

Manage Phrases and Clauses in a sentence

Use sentence structures (parallelism, connectives & relative clauses) to indicate relationships between & among sentence elements.

5.0 of 9 questions correct

Recognize Correctly Formed Sentences

Recognize correct sentence structure.

2.8 of 5 questions correct

Manage Order and Relationships of Sentences and Paragraphs

Identify how to order the elements of a sentence or paragraph to improve clarity, meaning, and the progression of ideas.

2.6 of 5 questions correct

Writing Skills Comparable Group Analysis

What is a comparable group?

A comparable group is a statistically generated group that allows you to identify questions where your students' performance diverges from what might be expected based on their overall performance. It is a sample of students whose overall performance was similar to the performance of your student population. This group is compiled based on performance only, and does not account for attributes like student demographics, geographic region or school size.

How is this information useful?

Focusing on questions where your students' performance is significantly lower than the comparable group performance can reveal opportunities where you might realistically expect to improve student learning. Similarly, when your students' performance is significantly higher than the comparable group performance, you can identify strengths in your curriculum and instruction, and work to ensure that those strengths are recognized and maintained.

Question	Difficulty	School (% correct)	Comp Group (% correct)	Difference between School and Comparable Group				
				-10%	-5%	0%	+5%	+10%
1	2	70	70			}		
2	2	80	81			}		
3	2	80	79			}		
4	3	63	64			}		
5	3	68	69			}		
6	3	60	64			}		
7	3	72	72			}		
8	4	67	67			}		
9	5	60	58			}		
10	5	61	62			}		
11	5	67	61			}		
12	5	43	45			}		
13	6	48	48			}		
14	6	44	48			}		
15	7	33	31			}		
16	7	41	38			}		
17	8	28	31			}		
18	8	29	26			}		
19	8	20	21			}		
20	8	21	22			}		

Question	Difficulty	School (% correct)	Comp Group (% correct)	Difference between School and Comparable Group				
				-10%	-5%	0%	+5%	+10%
21	1	83	82			}		
22	2	76	76			}		
23	3	69	72			}		
24	4	82	82			}		
25	4	71	69			}		
26	4	67	64			}		
27	4	56	58			}		
28	5	56	54			}		
29	6	38	37			}		
30	6	52	53			}		
31	8	28	27			}		
32	9	14	13			}		
33	9	21	19			}		
34	9	10	11			}		
35	2	67	70			}		
36	7	36	38			}		
37	4	57	58			}		
38	5	47	47			}		
39	3	54	56			}		

Your students performed **significantly worse** on questions that fall in the dark blue column to the left, and **significantly better** on questions that fall in the light blue column to the right.

Appendix Listing of Schools

This report includes data from the schools below, and is based on the school list that was provided by your state.

Note: Only schools that administered Wednesday form of the 2014 PSAT/NMSQT are included. Data for students at these schools who did not take the Wednesday form of the PSAT/NMSQT is not included in this report.

A3 ACADEMY OF ARTS & ACADEMICS	CULVER HIGH SCHOOL
ACADEMY FOR CHARACTER EDUCATION	DALLES HIGH SCHOOL
ACADEMY OF INTERNATIONAL STUDIES	DAVID DOUGLAS HIGH SCHOOL
ADRIAN HIGH SCHOOL	DAYS CREEK HIGH SCHOOL
ALLIANCE CHARTER ACADEMY	DAYTON SENIOR HIGH SCHOOL
ALOHA HIGH SCHOOL	DESTINATIONS ACADEMY
ALSEA HIGH SCHOOL	EAGLE POINT HIGH SCHOOL
AMITY HIGH SCHOOL	ECHO HIGH SCHOOL
ARLINGTON HIGH SCHOOL	EDDYVILLE CHARTER SCHOOL
ARTS AND COMMUNICATION MAGNET ACADEMY	ELGIN HIGH SCHOOL
ARTS AND TECHNOLOGY HIGH SCHOOL	ELKTON HIGH SCHOOL
ASHLAND HIGH SCHOOL	ENTERPRISE HIGH SCHOOL
