Accelerated learning data—on student participation in dual credit, direct enrollment, AP, and IB courses—were obtained and analyzed by Education Northwest for the period from 2013–14 to 2016–17. Data are presented for all students, high-achieving students (i.e., students who scored in the top 25 percent—75th percentile or better—on the state math and reading assessments) and middle-achieving students (i.e., students who scored in the 26th to 75th percentile on these assessments). Results are shown for each Oregon GEAR UP school type (i.e., Ford, cohort, priority, affiliate) and statewide.
